## **Harbor Pursuit Race – 2020**

**August 22, 2020**

- 1. Peligroso** – Because of the depth of its 11+ foot draft and shoaling at the first part of the channel leading into ABM, Peligroso would run aground at the second buoy if it was taken to port, therefore Peligroso will need to take that one buoy to starboard. In the name of safety, Peligroso may not be protested for taking this one buoy to starboard.
